Subject: Two Questions on GRTS Reporting for Oregon during 2014.

Hi Mary,

I am conducting the annual review for Oregon NPS program for 2014 and need you to answer the following questions:

For all active projects that have NPS reduction goals for nutrients or sediment, did Oregon report load reductions (WQ-9) into GRTS during the reporting period after the first year that practices were installed or implemented achieved?

Yes

Did Oregon enter all mandated data elements into GRTS (including geolocational tags where available) for all applicable projects in the previous section 319 grant award?

Yes

Are there any recommendations or improvements you would like to suggest?

Not at this time.

Thanks!

Jayne
